## DETAILED ACTION

### *Election/Restrictions*

1. Claims 1-5,9 and 12-18 are allowable. The restriction requirement between inventions I-III and IV-VII, as set forth in the Office action mailed on 10/11/2006, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 4 and 5, directed to inventions II and III are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. This application contains claims directed to the following patentably distinct species:

- I. Fluoroamido organic acids and fluoroamidoether organic acids
- II. Fluoroether organic acids in Claim 1 and fluoroether sulfonic acid of Formula V in Claims 10 and 11

The species are independent or distinct because the species claimed have different chemical structures and correspondingly different chemical properties.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

3. During a telephone conversation with John Lamming on 11/7/2007 an election was made without traverse to prosecute the invention of I.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

#### **EXAMINER'S AMENDMENT**

5. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Lamming on 11/7/2007.

The application has been amended as follows:

1.1 In Claim 1, line 10, **delete** "and fluoroether organic acids having the following general formula,  $R^5-O-R^4-Q$ ,".

1.2 In Claim 1, line 8, **insert** --and-- before "fluoroamidoether organic acids".

1.3 **Cancel** Claims 10 and 11.

### EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

6. The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is listed on the attached PTO 892 and 1449 forms. The references all teach various types of organic acid dopants which can be used in conjunction with the synthesis of conductive polymers, however, none of the prior art teaches a dopant which is comprised of fluorine, amide and acid moieties as required by instant Claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **Conclusion**

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jaison P. Thomas whose telephone number is (571) 272-8917. The examiner can normally be reached on Mon-Fri 8:30 am to 5:00 pm.
